PROFESSIONAL SUMMARY

Detail-oriented MCA graduate with 2+ years of professional experience at Tata Consultancy Services (TCS), specializing in production support, database administration, and web application development for global clients including Nielsen and British Airways. Skilled in SQL, Oracle, Python, AWS, and UI/UX design using Figma. Proven track record of resolving production incidents within SLA timelines, writing complex SQL queries, and collaborating with cross-functional teams to deliver reliable, user-focused software solutions.

TECHNICAL SKILLS

Programming & Scripting: Python, SQL, HTML, CSS, JavaScript

Databases: Oracle, Sybase SQL, MySQL, SQLite

Cloud & DevOps: AWS (CloudWatch, SQS), Control-M, GitLab, ServiceNow

Frameworks & Tools: Flask, SQLAlchemy, Bootstrap 5, Chart.js, DBVisualizer, Jira, Figma

Other Skills: UI/UX Design, AI-Assisted Development, Project Management, Critical Thinking

PROFESSIONAL EXPERIENCE

Tata Consultancy Services—Senior Software Engineer

2022 - 2024

- Provided 2+ years of development and production support for an On-Time web-based application, ensuring high availability and reliability for global clients.
- Collaborated directly with business users to gather, analyze, and translate requirements into technical solutions, consistently achieving high client satisfaction.
- Authored complex SQL queries for data extraction and reporting, supporting business decision-making.
- Reviewed code and backlog items to identify, troubleshoot, and resolve application issues in a timely manner.
- Enhanced and debugged client-server applications, implementing software solutions that improved system stability.
- Identified and recommended proactive maintenance approaches that reduced recurring issues for end users.

Nielsen Account—AWS DevOps & Support Engineer

- Automated monitoring and resolution of production job failures, improving operational efficiency and system reliability.
- Delivered production support for critical legacy applications hosted on AWS, ensuring uninterrupted business operations.
- Monitored AWS SQS FIFO queues and application workflows, proactively identifying and resolving processing issues.
- Served as Subject Matter Expert (SME) for legacy applications, managing production incidents and support activities within SLA timelines.
- Performed root cause analysis of application failures using AWS CloudWatch and database stored procedures, collaborating with cross-functional teams for timely resolution.

Technologies: Sybase SQL, Oracle, ServiceNow, GitLab, Control-M, DBVisualizer, AWS, Unix

British Airways Account—Web Developer

- Developed and maintained the airline website by completing tasks assigned and tracked through Jira Software.
- Performed root cause analysis (RCA) to identify and resolve website bugs within defined turnaround times.

- Participated in biweekly meetings with stakeholders to discuss required corrections and website modifications.
- Implemented unique design elements while handling deployment on a sensitive production platform.
- Collaborated with team members to complete development tasks and deliver resolutions for client verification.

Technologies: Perl, HTML, CSS, Jira Software

INTERNSHIPS

Prodigy InfoTech—Cyber Security Intern October 2025

Completed a one-month internship focused on cyber security fundamentals and practices.

MEASI Institute of Information Technology—UI/UX Design Intern June 2025

Completed a one-month internship focused on UI/UX design principles and practical application using Figma.

PROJECTS

College Course Enrollment Management System

- Built a web-based College Enrollment and Attendance Management System using Flask and SQLite/MySQL with role-based access control for Admin, Staff, and Student users.
- Implemented an interactive dashboard with Chart.js to visualize enrollment and attendance data.

Technologies: HTML5, CSS3, JavaScript, Bootstrap5, Chart.js, SQLAlchemy, MySQL

EDUCATION

Master of Computer Application—MEASI Institute of Information Technology 2024 - 2026

CGPA: 7.97

Bachelor of Computer Science—The New College 2018 - 2021

CGPA: 7.1

CORE COMPETENCIES

Project Management, Teamwork, Time Management, Leadership, Effective Communication, Critical Thinking

LANGUAGES

English (Fluent), Tamil (Native), Arabic (Reading)
